— PUBLIC WORKS —

To: Mayor and City Council

Andy Lent, City Clerk/CFO
From: Akhilesh Pal, Public Works Director
Date: August 17, 2020
Re: Change Order No. 3 - Traffic Signal System Timing Updates Project

The City of Indianola has retained Sternquist Construction to improve the synchronization of all the traffic signals and to reconstruct the pavement on Iowa Avenue, from 1st Street to Jefferson Way. This project is substantially completed, where the grass seeding is the only work remaining for this project. Although the contract for this project has a completion date of July 17, 2020, the seeding placed before this completion period of July 17, 2020 has a poor record of establishing grass. The optimum time to seed grass, as per the Iowa Department of Transportation (DOT) Standard Specifications, is between August 10th and September 30th. Therefore, the recommendation from the consultant engineer with Snyder & Associates is to extend the completion date for this project, from July 17, 2020 to September 4, 2020, to allow the seeding during late summer and within the Iowa DOT specified seeding window. This change order request does not have any financial impact. Staff is recommending the Council to approve Change Order 3, to extend the completion date to September 4, 2020, for the Traffic Signal System Timing Updates Project.

Re: Agreement for reseeding grass on properties impacted by the 2019 Drainage Improvements Project

The 2019 Drainage Improvements Project, on Y Street, O Street, S Court, and T Court, has been substantially completed by the construction contractor, TK Concrete, except for some minor clean-up, landscaping, and establishing grass in some of the disturbed areas. Although the contractor met the requirements of this project to complete the seeding during the spring of 2020, the grass has not properly established in some of the disturbed areas. There are four different properties impacted by this project where the grass has not properly established. Staff communicated with these four property owners proposing a project acceptance and settlement agreement to financially compensate them at the same amount that will cost the City to pay the construction contractor for reseeding. Of the four property owners, two of them agreed with the settlement agreement to be compensated for reseeding grass and the remaining two want the construction contractor to re seed their properties. The compensation for the settlement agreement of the two property owners is in the total amount of \$4,100. Staff is recommending the Council approve the settlement agreements, for a total amount of \$4,100, for reseeding grass on two properties impacted by this construction project.

The contract with TK Concrete will need to be amended later, by council approval, to reseed turf areas on the remaining two properties and install additional erosion protection stone to repair erosion that occurred during the summer rains. It is anticipated the work will be accomplished in late August and the project will be closed out when grass is established in the reseeded areas, which is typically within 60 days of seeding.

WHEREAS, the connection fee district ordinance shall otherwise remain unchanged; and

WHEREAS, upon due notice to the sole property owner of all property within the District and hearing concerning the proposed amendment to the Highway 92 West Sewer Connection Fee District ordinance, the City Council finds that the general health and welfare of the citizens of the City of Indianola will be benefited by the proposed changes to the Code of Ordinances, and property owner who has previously paid connection fees within the District will be prejudiced.

Andy Lent, City Clerk/CFO
From: Akhilesh Pal, Public Works Director
Date: August 17, 2020
Re: Temporary road closure resolution and right-of-way permit fee

There are various types of temporary road closures conducted throughout the city. These street or lane closures are initiated either by the City or a private construction contractor to help with the maintenance, repair, or installing new road, sewer, or utility infrastructure. The City staff can require a right-of-way permit for temporary street or lane closure requests, which will abide by section 134 of the City Code. In addition to this requirement for a right-of-way permit, the state code also requires the Council to adopt a resolution for temporary street or lane closures. The staff-recommended temporary road closure resolution will authorize the Public Works Director to close streets for this year's street improvements and emergency closures, when required for public safety and convenience. Staff is also recommending adding a \$25.00 fee to process the right-of-way permits. This \$25.00 fee will need to be added to the City's fee schedule through approval by Council Resolution. Staff is recommending the Council approves this resolution for these temporary street or lane closures and to approve the \$25.00 fee for the right-of-way permits.

AERIAL MAP

APPLICABLE CODE SECTIONS

The following sections of the Code of Ordinances of Indianola, Iowa apply to this request:

170.02 JURISDICTION. All plats of survey, plats, replats or subdivisions of land into three (3) or more parts for the purpose of laying out a portion of the City of Indianola, an addition thereto or suburban lots within two (2) miles of the corporate limits of the City for other than agricultural purposes shall be submitted to the Council and the Commission in accordance with the provisions of this chapter and shall be subject to the requirements established herein. This chapter shall regulate the subdividing of land within the City and all land within an area extending two miles beyond the corporate limits in accordance with the provisions of Section 354.9, Code of Iowa.

170.13 DESIGN STANDARDS — LOTS.

1. All lots shall abut on a street or place. Corner lots which abut on a thoroughfare or collector street shall have a minimum radius of 25 feet at the intersection.
2. Sidelines of lots shall approximate right angles to straight street lines and radial angles to curbed street lines except where a variation will provide better lot layout.

3. Lots with double frontage shall be avoided, except in specific locations where good planning indicates their use. In that event a planting screen shall be provided along the rear of the lot.
4. Corner lots shall not be less than 80 feet in width and interior lots shall not be less than 70 feet in width at the building line.
5. Lot depth shall not exceed 2½ times the width.
6. No lot shall have less area than required by the Zoning Ordinance for the district in which it is located.

170.38 ENFORCEMENT. In addition to other remedies and penalties prescribed by law, the provisions of this chapter shall not be violated subject to the following:

1. No plat of survey, plat or subdivision in the City or within two (2) miles thereof shall be recorded or filed with the County Auditor or County Recorder, nor shall any plat or subdivision have any validity until it complies with the provisions of this chapter and has been approved by the Council as prescribed herein.

ANALYSIS

Steven M and Jeri Le Henry currently own a 25.15-acre parcel, which does not contain any buildings. The Henry's propose to sell a 7.51 acre parcel off from this parcel to a buyer who proposes to build a single-family dwelling. As this site is not located within the City of Indianola, but is within two miles of the City, it falls under the review authority of the City. The comprehensive plan calls for this area as agriculture, and it is not within a growth priority area of the City. Letters were mailed to property owners within 200 feet of this property on July 30, 2020.

ALTERNATIVES

The City of Indianola Planning and Zoning Commission may consider the following alternatives:

- 1) The City of Indianola Planning and Zoning Commission recommends the plat of survey request be approved, as submitted.
- 2) The City of Indianola Planning and Zoning Commission recommends the plat of survey request be approved, with conditions.
- 3) The City of Indianola Planning and Zoning Commission recommends the plat of survey request be denied.
- 4) The City of Indianola Planning and Zoning Commission remands the plat of survey request, back to the applicant and/or staff for further review and/or modifications and directs staff to place this item on a future Planning and Zoning agenda.

RECOMMENDATION

Staff recommends that the City of Indianola Planning and Zoning Commission move alternative 1, approving the plat of survey request, as submitted.

Re: Resolution Accepting Right-of-Way Acquisition for the East Iowa Avenue Paving Project.

As the City Council is aware, the City is in the process of finalizing the plans and specifications for the East Iowa Avenue Paving Project. Those, plus the form of contract and notice to bidders, is scheduled to be released in late summer of 2020, with a bid opening and potential award of contract in the fall of 2020.

As part of this project, the Council adopted a preliminary assessment schedule on March 2nd, 2020, that identified the possible use of special assessments on five properties. To date, the City has received four (4) signed development agreements as it relates to those special assessments. Additionally, as part of this project, various easements for public utilities, storm sewer and overland flowage, and temporary construction are also needed. All of the necessary easements for this project have been obtained.

The next step in the process is to acquire the right-of-way along East Iowa Avenue which is currently held by easement. Four (4) acquisition plats have been prepared, and three (3) of the deeds for acquisition have been accepted to date. The final deed is on your August 17th agenda for acceptance.

Staff will continue to work with the property owners to secure the remaining development agreement. I will attend the August 17th Council meeting if you have any questions.

Dear Charlie,

After reviewing the construction of Prairie Glynn Plat 2, it is my opinion that the plat improvements have been installed in substantial conformance with our approved construction plans. This does not apply to the intersection with 15th Street, which is still under construction due to the fiber optic conflict.

ANALYSIS

The request is for final plat approval of a 23-lot residential subdivision. The preliminary plat of this subdivision was approved by the City Council on July 15, 2019, and the final plat matches that preliminary plat that was approved. The plat includes an extension of East Franklin Avenue to the east, and North 17th to the north. East Franklin will

terminate at a "T" intersection with North 17th Street, and North 17th Street will terminate in a dead-end on the north end of the development awaiting future development.

Grading and utilities have been completed for this subdivision; however, paving has yet to be completed. As such, City staff has not yet done a final inspection of the improvements. Furthermore, staff is awaiting maintenance bonds for the improvements.

Letters were mailed to property owners within 200 feet of this property on May 29, 2020.

ALTERNATIVES

The City of Indianola Planning and Zoning Commission may consider the following alternatives:

- 1) The City of Indianola Planning and Zoning Commission recommends the final plat be approved, as submitted.
- 2) The City of Indianola Planning and Zoning Commission recommends the final plat be approved, with conditions.
- 3) The City of Indianola Planning and Zoning Commission recommends the final plat be denied.
- 4) The City of Indianola Planning and Zoning Commission remands final plat, back to the applicant and/or staff for further review and/or modifications and directs staff to place this item on a future Planning and Zoning agenda.

RECOMMENDATION

Staff recommends that the City of Indianola Planning and Zoning Commission move alternative 2, recommending the final plat be approved with the following conditions:

1. The City Council review the recommendation of approval after all improvements have been inspected and approved by staff, and all maintenance bonds have been secured.

— CLERK/FINANCE DEPARTMENT —

To: Mayor and Council
From: Andrew J. Lent, City Clerk/CFO
CC: Ryan Waller, City Manager
Date: 17 August 2022
Re: FY2022 Environmental Scan

The purpose of this memo is to provide a precursory outlook on the budget for Fiscal Year (FY) 2022. We have already begun preliminary work on the budget by holding some coordination meetings on the Capital Improvement Plan. Much of the outlook depends on the situation with the COVID-19 virus. It is expected that most economic recovery will occur when a vaccine is developed and issued to the general public. While some speculators have put this roll out at the end of calendar 2020 (midpoint of the 2021 Fiscal Year), it is anticipated a vaccine will not be in widespread use until the beginning of the 2021 calendar year, and perhaps not until the second quarter of that year.

Locally, most indicators have the Indianola city economy in a positive light. Building permits (and that associated valuation) continues to outpace previous year's activity. Additionally, many more housing development plats have been reviewed and approved by Planning and Zoning Commission and City Council. Commercial development also appears to be trending in a positive direction with new commercial sites, such as: Missouri Valley Joint Training Site, Ace Hardware, Peoples Bank Administration Building, Indianola Pediatric Clinic, and Scooter Coffee Drive-Thru, either completed or near completion. While the county courthouse project was delayed, the development of the Downtown Square is now in full swing with other building renovations either in process or completed and engineering beginning on the Square Streetscape project.

Road Use Tax Fund (RUTF) revenue appears to be heading back to normal as the amount of traffic picks up in the area. According to the IDOT website, most traffic count during the first week of August was only 10 percent or lower less than the same week last year. This will mean that, although the City may see a dip in the next few months, RUTF revenues should return to normal. This is a healthy outlook for the RUTF fund as the City also anticipates an increase in the per capita rate due to higher population count following the 2020 Census.

More heavily impacted are the City's cultural and recreation functions; the Public Library, Parks and Recreation, and Aquatic Center. While saving money with no operational expenses, there is

— CLERK/FINANCE DEPARTMENT —

also no revenue. This situation will more likely impact the Parks Department as on-going expenses such as the maintenance of the parks continue, but there are no program fees to assist with these costs. In anticipation, some property tax revenue may need to be shifted from the aquatic center to the Parks Department, but should things proceed well in the COVID-19 recovery, this shift will not be needed in FY2022.

In FY2022, we will continue to implement the recommendations of the public safety staffing study that were adopted by the City Council. The Police Department is currently delaying the two new officers budgeted in FY2021 until a review is completed on the property tax revenue distribution in October. The Fire/EMS Department intends to include three additional fire fighter/paramedics. The department is also submitting a SAFER grant to temporarily assist with these personnel costs for the short term. A decision will need to be made on either implementing these hires immediately or waiting on the results of the SAFER grant application.

In conclusion, provided things go well with the COVID-19 vaccine trails, the economy should turn around in FY2021 with a strong return in FY2022. The outlook is more cautiously optimistic. As we progress with the approved budget calendar, staff will be sure to share updated economic information.

Snyder and Associates, along with the City of Indianola, propose to submit a nomination to the Iowa Chapter of the American Planning Association for the APA Daniel Burnham Award for a Comprehensive Plan for the *Elevate Indianola Comprehensive Plan*. As Council will recall, the *Elevate Indianola Comprehensive Plan* was approved on May 4th, 2020 after an about two-year process which engaged the community through in-person events, an online survey, multiple project management team meetings, and a public open house.

Snyder and Associates and City staff request a letter of support on behalf of the Mayor and City Council for this award. The proposed letter is attached. I will attend your August 17th meeting to answer any questions you may have.

RE: Daniel Burnham Award for a Comprehensive Plan – Elevate Indianola Comprehensive Plan

Dear Ms. Bothell:

On behalf of myself and the City Council for the City of Indianola, I am writing to offer our support for the City of Indianola and Snyder & Associates' nomination for the APA Daniel Burnham Award for a Comprehensive Plan for the Elevate Indianola Comprehensive Plan.

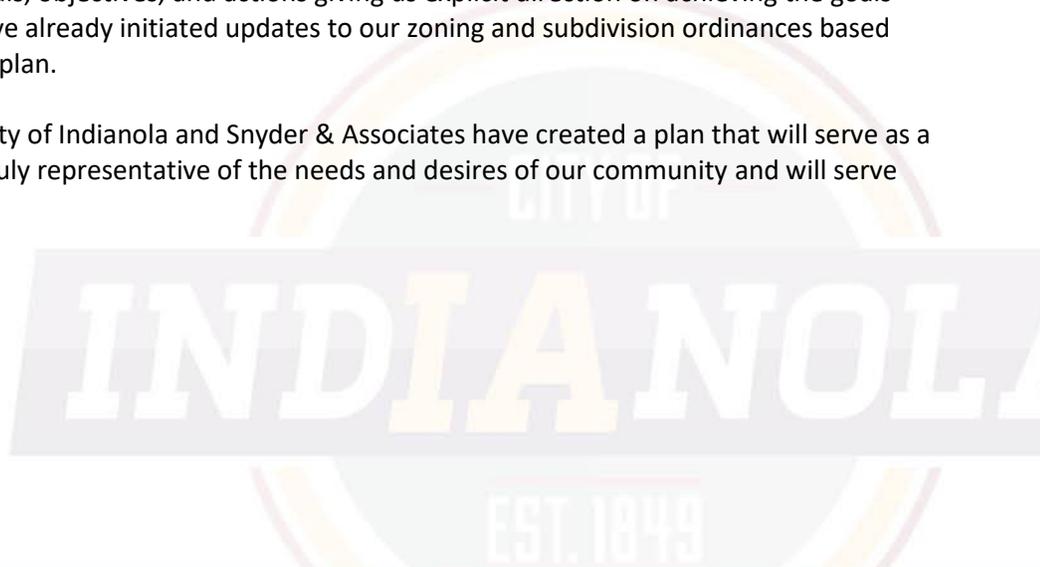

This plan engaged our community in several ways such as in-person events, an online survey – reaching over 1,600 participants – multiple project management team meetings, and a public open house. These engagement strategies helped to create a comprehensive plan that is truly unique to our community. The Elevate Indianola Comprehensive Plan demonstrates originality and innovation because it is truly based off the values, needs, and desires of our citizens.

This plan builds off Iowa's Smart Planning Principles and follows planning best practices, making its methodology and implementation of exceptional quality. There are chapters for Land Use and Growth Management, Economic Development, Housing & Neighborhoods, Transportation, Community Services, and the Environment & Sustainability. This plan is accompanied by an effective implementation plan that provides achievable and measurable goals, objectives, and actions giving us explicit direction on achieving the goals created by our citizens. We have already initiated updates to our zoning and subdivision ordinances based upon recommendations in the plan.

We strongly believe that the City of Indianola and Snyder & Associates have created a plan that will serve as a guiding document for that is truly representative of the needs and desires of our community and will serve those needs for years to come.

Jo Reynolds Bio

I have lived in Indianola all my life beginning my school career at Whittier Elementary and graduated from Indianola High School. I studied Agricultural Business at Iowa State University.

My husband, Martin, have been married for 36 years. We have three grown children and four beautiful grandchildren and one on the way in a couple weeks.

We live on my family's Century Farm, northwest of Indianola, where we raise corn, soybeans, and hay. We own a 200-head commercial cow/calf operation and sell feeder calves.

My husband and I owned and operated Reynolds Feed Service for 27 years in Indianola until January of 2015 when we sold due to competition from a chain store coming to town.

For 31 years I have owned and been an insurance agent for my Crop and Farm Insurance Agency. (so that I can afford this Fair passion that I have!!)

I am currently and have been the Fair Manager for the Warren County Fair for 21 years. Prior to that I was helping my parents who were managers before me.

I served for 12 years, on the Association of Iowa Fairs SC District Board of Directors and serving as President in 2014. My 12-year term will end in December of 2020.

I currently serve, and have served for 20 years, as the Association of Iowa Fairs SC District Chairman. This involves gathering 16 county fairs from my district for a spring and fall meeting.

I graduated in 2012 from the Institute of Fair Management from the International Association of Fairs and Expositions (IAFE). I am currently enrolled a Leadership Graduate Program and will present my studies in Denver, Colorado in January. I have previously graduated from the Management and Marketing graduate programs in the Institute of Fair Management.

I received my Certified Fair Executive designation from the IAFE in 2013. There are currently only 8 active CFE's in Iowa.

In 2017, I was elected as (IAFE) Zone 5 Director at the annual meeting held in Las Vegas where over 300 fairs from five states vote for the next director. This position allows me to serve on the IAFE Board of Directors representing the states of Iowa, Illinois, Missouri, Nebraska, and Kansas. It is truly an honor to serve on a board with representatives from Australia, Canada, and several other countries.

I am a current member of T.T.T. Chapter FL, Indianola and have held every office during the last 27 years. I have co-chaired the T.T.T. State Convention twice and attended Conventions 23 of 27 years.

I have served on the redistricting committee for the Indianola Schools.

I have a passion for learning so I am constantly reading and try to get involved in as many events as I can while making time for my family and grandkids whom I adore.

Re: An ordinance amending the City Code of the City of Indianola, Iowa, Chapter 165, regarding preschools and childcare centers.

At its meeting on July 20th, the City Council set a public hearing for a zoning regulation amendment to Chapter 165, regarding preschools and childcare centers. At its June 1st meeting, the Indianola City Council directed staff and the Planning and Zoning Commission to explore the possibility of amending the zoning regulations regarding preschools. This request was made to Council by Cheryl Geurts of Indianola Preschool, Inc.

At its meeting on July 14th, the Planning and Zoning Commission reviewed this item and, on a 6-0 vote, recommended amendments to Council related to this request. Staff Report

Planning and Zoning Commission

Date of Meeting: July 14, 2020

Agenda Item: 7. A. Consider recommendation on request from Cheryl Geurts of Indianola Preschool, Inc for approval of an amendment to Chapter 165, regarding preschools and childcare centers.

Application Type: Ordinance Amendment

Applicant: Cheryl Geurts of Indianola Preschool, Inc

Application Summary: At its June 1st meeting, the Indianola City Council directed staff and the Planning and Zoning Commission to explore a possible amendment to the regulations regarding preschools and childcare centers. This request was made to Council by Cheryl Geurts of Indianola Preschool, Inc.

APPLICABLE CODE SECTIONS

The following sections of the Code of Ordinances of Indianola, Iowa apply to this request:

1.07 AMENDMENTS. All ordinances which amend, repeal or in any manner affect this Code of Ordinances shall include proper reference to chapter, section, subsection or paragraph to maintain an orderly codification of ordinances of the City.

165.38 CHANGES AND AMENDMENTS. The regulations and restrictions imposed in the districts, and the boundaries of the districts created by this chapter may be amended from time to time by the Council, but no such amendment shall be made without public hearing before the Council and after a report has been made upon the amendment by the Commission. Not less than seven nor more than 20 days' notice of the time and place of such hearing shall be published in a newspaper having general circulation in the City. The Commission shall not make any recommendation to the Council on an amendment to the zoning district boundaries until a sign 18 inches by 24 inches indicating the amendment requested has been prepared and posted by the City in a visible location on the premises for a period of 10 days. Notice of the Commission meeting shall be mailed by first class mail 10 days prior to the meeting to all property owners within 200 feet of a proposed amendment to the zoning district boundaries. In case the Commission does not approve the amendment or, in the case of a protest filed with the Council against an amendment to district boundaries signed by the owners of 20 percent or more either of the area of the lots included in such proposed amendment or of those immediately adjacent thereto and within 200 feet of the boundaries thereof, such amendment shall not be passed except by the favorable vote of three-fourths of all the members of the Council.

ANALYSIS

Attached to this staff report is the letter that was presented to the City Council from Cheryl Geurts of Indianola Preschool, Inc requesting a review of the zoning code as it pertains to preschools and childcare centers. More particularly, Ms. Geurts wishes to have preschools allowed in the R-1, Single Family Residential Zoning District by a special exception. Currently, the City of Indianola allows for "private kindergartens and day nurseries" as a permitted principal use in the R-2 (Single and Two- Family), R-3 (Mixed Residential), and R-4 (Multiple-Family Residential) Zoning Districts. Day care centers are allowed as an accessory use in the C-1 (Office Park Commercial) Zoning District, and as a special exception in the C-2 (Highway Commercial) Zoning District.

In review of Section 237A of the Iowa Code, there are generally four (4) different kinds of childcare. As defined in Iowa Code, a "childcare home" means a person or program providing childcare to five or fewer children at any one time that is not registered to provide childcare. A "child development home" means a person or program registered under section 237A.3A that may provide childcare to six or more children at any one time. A "childcare center" means a facility providing childcare or preschool services for seven or more children, except when the facility is registered as a child development home. A "preschool" means a child care facility which provides to children ages three through five, for periods of time not exceeding three hours per day, programs designed to help the children to develop intellectual skills, social skills, and motor skills, and to extend their interest and understanding of the world about them.

In reviewing this request to provide a recommendation, staff determined a modernization of the regulations as they pertain to preschools and childcare centers was necessary to better align the City's code with the Iowa Code. As such, staff proposes to delete the use of private kindergartens and day nurseries from the R-2, R-3 and R-4 zoning districts. Further, staff would recommend adding two new levels of childcare services. The first use would be a childcare home (following the definition of the Iowa Code) that would be allowed as a permitted principal use in the A-1, R-1, R-2, R-3, R-4 and R-6 zoning districts. To be consistent with Iowa Code, we would also recommend adding a definition for childcare home to state "a private residence where childcare is provided to five (5) or fewer children at

any one time and that is not registered with the State of Iowa. (See Chapter 237A.3 of the State Code of Iowa.) The second use would include all other childcare, including preschools, as a special exception in the R-1, R-2, R-3, C-2 and C-3 zoning districts and a permitted principal use in the R-4 and C-4 (class 2) zoning district. Staff proposed to allow these as a permitted principal use in the R-4 district as that district only allows multi-family housing, and in the C-4 as the C-4 district is a planned district, and an overall plan for development would need to be reviewed by the Planning and Zoning Commission and City Council.

The sections of code, and the proposed language of each, are attached with the new language underlined, and the deleted language struck out.

The City of Indianola Planning and Zoning Commission may consider the following alternatives:

- 1) The City of Indianola Planning and Zoning Commission recommends the zoning regulation amendment request be approved, as submitted.
- 2) The City of Indianola Planning and Zoning Commission recommends the zoning regulation amendment request be approved, with changes.

To whom it may concern:

I am writing on behalf of Indianola Preschool, Inc. with a request for consideration for preschools and child care centers to be allowed to operate in R1 zoning under a special use permit. We have been searching throughout Indianola for the past several years for a location to relocate our preschool/child care business with no success. We have exhausted our options within the R2, R3, and C2 zoning and would like the opportunity to look at R1 zoned properties. Thank you for your consideration.

Proposed Changes

COMMUNITY DEVELOPMENT

To: Mayor and City Council
From: Charlie E. Dissell, Community and Economic Development Director
CC: Ryan Waller, City Manager
Date: August 7th, 2020
Re: An ordinance amending the City Code of the City of Indianola, Iowa regarding various fees.

At its meeting on July 20th, the City Council set a public hearing for a zoning regulation amendment to Chapter 165, regarding various fees. As the Council may recall, at its March 25th meeting, various fees related to applications reviewed by the Community Development Department were amended. This proposed amendment removes those fees from the Code of Ordinances and adds language that notes that fees are determined by the most recently adopted fee schedule by the City Council.

At its meeting on July 14th, the Planning and Zoning Commission reviewed this item and, on an 8-0 vote, recommended amendments to Council related to this request. Attached to this memo is the staff report that was provided to the Planning and Zoning Commission, as well as the proposed language the Commission reviewed. Since that time, a review of the changes was done by Legal Counsel, and alternative language was recommended. The ordinance, with additions underlined, and deletions stricken. The new language is not a substantive change and was done to clarify that the Council needs to adopt the fees by resolution. The new language is shown in the attached ordinance. I will attend the August 17th Council meeting if you have any questions.

Planning and Zoning Commission

Date of Meeting: July 14, 2020

Agenda Item: 7 E. Consider recommendation on request for approval of for various amendments, including zoning regulation amendments to Chapter 165, regarding fees.

Application Type: Ordinance Amendment

Applicant: City of Indianola

Application Summary: At its March 25th meeting, the Indianola City Council amended various fees related to applications reviewed by the Community Development Department. This proposed amendment would remove those fees from the Code of Ordinances and adds language that notes that fees are determined by the most recently adopted fee schedule by the City Council.

APPLICABLE CODE SECTIONS

The following sections of the Code of Ordinances of Indianola, Iowa apply to this request:

1.07 AMENDMENTS. All ordinances which amend, repeal or in any manner affect this Code of Ordinances shall include proper reference to chapter, section, subsection or paragraph to maintain an orderly codification of ordinances of the City.

165.38 CHANGES AND AMENDMENTS. The regulations and restrictions imposed in the districts, and the boundaries of the districts created by this chapter may be amended from time to time by the Council, but no such amendment shall be made without public hearing before the Council and after a report has been made upon the amendment by the Commission. Not less than seven nor more than 20 days' notice of the time and place of such hearing shall be published in a newspaper having general circulation in the City. The Commission shall not make any recommendation to the Council on an amendment to the zoning district boundaries until a sign 18 inches by 24 inches indicating the amendment requested has been prepared and posted by the City in a visible location on the premises for a period of 10 days. Notice of the Commission meeting shall be mailed by first class mail 10 days prior to the meeting to all property owners within 200 feet of a proposed amendment to the zoning district boundaries. In case the Commission does not approve the amendment or, in the case of a protest filed with the Council against an amendment to district boundaries signed by the owners of 20 percent or more either of the area of the lots included in such proposed amendment or of those immediately adjacent thereto and within 200 feet of the boundaries thereof, such amendment shall not be passed except by the favorable vote of three-fourths of all the members of the Council.

ANALYSIS

As part of the FY 2021 budget process, various fees related to Community Development were reviewed. During this review, staff researched the amount of staff time involved in reviewing these types of applications and compared each fee to what other communities in the Des Moines Metro, as well as other similar sized cities in Central Iowa, charge. On March 25 of this year, the City Council adopted the FY 2021 schedule of fees, which included an adjustment to various fees charged by Community Development. Since that time, it has been realized that many of those fees are written into the Code of Ordinances. In an effort to not have to amend the Code of Ordinances every time a fee is proposed to be adjusted, Staff is recommending that each fee be taken out of the Code of Ordinances, and replaced with language that notes that fees are determined by the most recently adopted fee schedule by the City Council.

The sections of code, and the proposed language of each, are attached with the new language underlined, and the deleted language struck out.

ALTERNATIVES

The City of Indianola Planning and Zoning Commission may consider the following alternatives:

- 1) The City of Indianola Planning and Zoning Commission recommends the zoning regulation amendment request be approved, as submitted.
- 2) The City of Indianola Planning and Zoning Commission recommends the zoning regulation amendment request be approved, with changes.
- 3) The City of Indianola Planning and Zoning Commission recommends the zoning regulation amendment request be denied.

- 4) The City of Indianola Planning and Zoning Commission remands the zoning regulation amendment request, back to staff for further review and/or modifications and directs staff to place this item on a future Planning and Zoning agenda.

Staff recommends alternative number 1, that the City of Indianola Planning and Zoning Commission recommends the zoning regulation amendment request be approved, as submitted.

Failure or refusal by the right-of-way user to follow such instructions shall constitute a violation of this section.

In the event that like materials for replacement are not available, the Building and Zoning Official may approve the use of an alternative material that is reasonably close in effect to the original material. The Building and Zoning Official will consider and evaluate for approved use, on a case by case basis, such alternative methods that meet standards of good engineering practice.
6. Where a cut or disturbance is made by a right-of-way user to a section of a street or a sidewalk paving, rather than replacing only the area cut, the right-of-way user shall replace the full width of the existing sidewalk or street paving and the full length of the section or sections cut, a section being that area marked by expansion joints or scoring, or as directed by the City.

If it is shown to the satisfaction of the Street Superintendent that the existing sidewalk has substantially the same strength as six-inch concrete, the paving need only extend to the outside of the sidewalk line. All work is to be done in a workmanlike manner, inspected and approved by the Street Superintendent.

4. Failure to Reconstruct Pavement. If, after 30 days after the breaking out or removal of any concrete curb, the person doing the work fails or refuses to pave the driveway as required by this section, the City shall have the right to do so without notice, and assess the cost thereof as a special tax against the abutting property and collect the tax according to law.

All such permits shall be issued upon the express condition that they may be revoked at any time by the Building Official and that all trees planted pursuant to said permit

All street trees shall be planted within 120 days after approval unless an extension is requested in writing by the applicant and approved by the Building Official. An extension of one year can be granted for good reasons. If the 120 days elapses, a new permit with fee shall be required to plant street trees. 165.39 APPLICATION FOR CHANGE OF ZONING DISTRICT BOUNDARIES.

Any person may submit to the Council an application requesting a change in the zoning district boundaries as shown on the official zoning district map. Such application shall be filed with the Administrative Officer accompanied by a fee as determined by the most recently adopted fee scheduled by the City Council ~~of \$200.00~~ and shall contain the following information:

2. The present zoning classification and the zoning classification requested for the property.
3. The existing use and proposed use of the property.

State Highways 65/69 and 92 – If you have driven along State Highways 65/69 or 92 lately the City Team hopes you noticed the improved synchronization of the traffic signals. The new timing for these traffic signals was completed last week as part of the City's project to reconstruct a portion of Iowa Avenue. This work, which was partially funded by a grant, is expected to be completed by the first week of September when seeding of the disturbed area is performed. Thank you to the community for the patience during this important project!

Grant Awarded - As previously reported, the City, Helping Hand, the Indianola Chamber and Central Iowa Shelter Services began exploring a possible partnership to compete for Federal grant dollars available to support restaurants impacted by the COVID-19 pandemic. Thank you to Councilwoman Schroder who made this connection after initially being contacted by a representative from the Central Iowa Shelter Services about this opportunity. The City Council endorsed this partnership (July 6th council meeting) and authorized the submission of a grant application seeking \$62,700 (July 20th council meeting). On Thursday, August 6th notification was received announcing the application was successful, and the City was awarded the full request. The program is expected to begin on Monday, August 10th. Details will be advertised on the City's website and social media outlets.

Code Updates – Following the adoption of the updated Comprehensive Master Plan (*Elevate Indianola*), at its meeting on July 20th the City Council appointed an advisory committee to begin

work on an overall review and updating process of outdated City Codes. This is being done to ensure the City's regulations align with and promote the community's vision established by *Elevate Indianola*. The kick-off meeting with the advisory committee took place earlier this week with a focus on the City's Zoning Code, Plantings in Parking Code (street trees), Sign Code, Site Planning Code, and Subdivision Code. At this meeting, the committee discussed the purpose, scope and timeline of the updates, as well as issues with the current codes, goals of the updates, and they formulated a list of community stakeholders that should be consulted as part of the update process. Updates will be provided as this major project continues to progress.

Square Streetscape Project – Last year, a committee of community stakeholders presented a recommendation to the City Council on the overall design and layout of the Square Streetscape. This design, which was approved by the City Council in 2019 and ultimately received an award from the American Planning Association (Iowa Chapter), included the recommendation for two-way traffic around the Square. As the City's engineers on this project (Bolton and Menk) work towards the 30% design mark, confirmation on prior direction from the City Council regarding the traffic pattern around the Square, and on Howard and Buxton Streets, is needed. At its Study Session on August 17th, the City Council will receive a presentation on various components of a conversion to two-way traffic. While a formal decision on one-way vs two-way will not be made on August 17th, the direction received will begin the process of completing necessary studies, preparing necessary ordinance changes, and will give direction to the design team on the Square Streetscape Project.

Industrial Park Street/Drainage Work – Streets Division Staff completed the street and drainage improvements on North 14th Street in the City's Industrial Park. Work began on Monday, August 3rd and was completed within two days. The project required 123 hours of labor and 80 tons of rock for the pavement edge shoulders. The drainage ditches in the vicinity were also reshaped to improve the storm water run-off, which should address some of the concerns regarding standing water in the area.

Parking Lot Maintenance – Streets Division Staff will continue cleaning and/or painting of various municipal parking lots in the vicinity of the town Square. Work began earlier this week and will continue until August 12th (weather permitting). Additional details may be found on the City's website at <http://indianolaiowa.gov/CivicAlerts.aspx?AID=1641> and on our social media outlets.

South Kenwood Drive Repairs – Crews from the Streets Division and Water Pollution Control began repair work on failing sanitary sewer manholes and pavement sections on the 300-400 block of South Kenwood Drive. To date crews have used a total of 16 hours of labor and 9 cubic yards of concrete to repair the 350 square feet of pavement. Information regarding this work may be found on the City's social media outlets.

COVID Expenses – Earlier this week, Governor Reynolds announced that communities would be eligible for certain expense incurred as a result of the COVID-19 pandemic. While staff continue to monitor the necessary requirements to submit for reimbursement, much of the necessary work has already been completed. This is all thanks to foresight of the City’s finance team and cooperation of our operating departments. As we learn more, additional updates and possible City Council agenda items will be planned and provided accordingly.

Census – Indianola’s Census response rate is currently at 71.8% and continues to outpace the same for the Nation and the State. Reminder postcards have been sent to households who had not yet responded. This will be the final mailing before census takers begin visiting non-responding households in the next few weeks. If you have not already responded to the Census, and to avoid a visit to your home by a census taker, please respond online (<https://2020census.gov/en/ways-to-respond/responding-online.html>) or by phone (844-330-2020) to ensure our community doesn’t lose out on critical funding for roads, schools and other vital services.

Meeting Presentation – Information contained in the presentation provided during the August 3rd City Council meeting regarding the City’s 28 E agreement with the YMCA may be found on the City’s website [here](#). As noted in the presentation there are no tax dollars that support the operations of the YMCA and none of the rent paid to the City is used to make bond payments for the building.

Building Permit Report – The Community Development Department released its July 2020 building permit report this week. The City issued 24 permits in July, 11 of which were for new homes. In comparing 2020 to 2019 there have been 12 more permits (124 vs 112) this year with 58 of the issued permits for new homes (48 new home permits in 2019). The total value of permitted construction is \$14,171,787 compared to \$9,514,218 in 2019. If you are interested in being placed on the emailing list for these reports, please contact Community Development at 961-9430.

Upcoming City Council Agendas – Attached, please find documents containing anticipated agenda items for the August 17th and September 8th upcoming meetings. These are working drafts. Agendas are published on the City’s website the Thursday prior to a scheduled City Council meeting.
