ST. PATRICK’S DAY FUN FACTS

How did the shamrock become associated with Saint Patrick? According to Irish legend, the saint used the three-leafed plant as a metaphor for the Holy Trinity when he was first introducing Christianity to Ireland.

Another little-known fact from Irish lore: Leprechauns earned that gold they’re guarding. According to legend, leprechauns spend their days making and mending shoes. It’s hard work, so you can’t blame them for being territorial about their pots of gold.

New York City’s Saint Patrick’s Day Parade is one of the world’s largest parades. Since 1762, 250,000 marchers have tramped up Fifth Avenue on foot – the parade still doesn’t allow floats, cars, or other modern trappings.

Saint Patrick himself would have to deal with pinching on his feast day. His color was “Saint Patrick’s blue,” a light shade. The color green only became associated with the big day after it was linked to the Irish independence movement in the late 18th century.
